

# QUICK GUIDE to estimate required amount of cylinders in relation to room size

M <sup>3</sup>	DIMENSIONS (METERS)	CYLINDERS (80L, 300 BAR)
50	H: 2,5 / B: 4 / L:5	1
100	H: 2.5 / B: 5 / L: 8	2
200	H: 2.5 / B: 7 / L: 11,5	4
500	H: 4 / B: 8 / L: 15,5	10
1000	H: 6 / B: 10 / L: 17	20
2500	H: 7 / B: 14,5 / L: 25	50
5000	H: 10 / B: 16,5 / L: 30	105
7500	H: 10 / B: 19 / L: 39	155
10.000	H: 10 / B: 22,5 / L: 45	210

Note:

The number of cylinders depends on the chosen standard, and several factors can influence the outcome, such as temperature.
